Hoop Mountain New York Girls Academy is a 4 day, 3 night basketball learning experience. At Hoop Mountain New York Girls Academy we pride ourselves on teaching basketball from the basic fundamentals for beginning players to advanced techniques for experienced players. One of the principal components of the Academy is the teaching staff where our staff of college and high school coaches help campers learn both offensive and defensive skills needed to be effective on the court. To complement teaching stations, the Academy offers both individual and team competitions. These allow participants to put to use skills learned at stations. The combination of learning new skills and competing at appropriate ability levels insures that each and every camper at Hoop Mountain New York Girls Academy will improve from the novice hoopster to the experienced varsity player. The Academy will help you make yourself a better basketball player.
